

The heatmap visualizes the distribution of API versions over time. The y-axis represents the API version (7-22), and the x-axis represents the Date (Aug 2011 to Feb 2015). The color bar on the right indicates the density of versions, ranging from 0.1 (yellow) to 0.8 (dark red). API version 10 shows the highest density, peaking around 0.8 in early 2012. Other versions like 8, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, and 22 show varying levels of density over time.
